Re: MB Docket No. 04-233

Dear Ms. Dortch:

STOP AIDS is Greater Cincinnati's only AIDS service organization. We were started in 1983 in response to the first cases of HIV in the area. It is our mission to provide support and care to those living with HIV, and to better educate the public about the virus, so as to reduce transmission.

Bonneville International-Cincinnati has always been open to hearing ideas for how they can help STOP AIDS further our mission in the Greater Cincinnati area. Their support and interest in the betterment of the community benefits not just our agency, but many others as well.

STOP AIDS has always been able to count on Bonneville International-Cincinnati as an important community partner. Some of the ways they have helped us advance our cause include:

- STOP AIDS has been invited to appear on the Public Affairs Show *Sunday Morning Magazine* to discuss HIV/AIDS
- The station airs news stories concerning issues of importance to STOP AIDS and our ongoing mission.
- The station regularly airs PSAs concerning issues of importance to STOP AIDS.

In conclusion, Bonneville International-Cincinnati (WKRC, WUBE, WYGY, WSWD) has been effective in serving my organization's needs as well as those of the community at-large. We see no need for additional rules or reporting requirements that insert federal oversight of the process of broadcasters serving the community.

Respectfully submitted,

Victoria Brooks, CEO
